MEDICAL RESULTS MANAGEMENT: DOCTOR OF THE DAY

Rationale

All results in Sandyford require to be reviewed by an appropriate health care professional.

Results that do not fit strict criteria for action by nurses and are not under the remit of recognised teams are escalated for medical review to the identified doctor listed on the medical rota.

Action

1. Check SC Daily Results Medical Review tab

2. Check for any note / query on the Current Appt Note

   Current Appt Note (Next)
   review skin swab please

3. Review results set to Clinician Interpretation Required

4. Remember to check Results Reporting

   Skin Swab

   Organism 1) Group B Streptococcus
   2) Mixed Anaerobic Organisms
   :
   Antibiotic   1 2 3 4
   Amp/Amoxicillin   S
   Doxycycline   R

5. Check any other clinical context that may be needed

6. Take any necessary action including contacting patient, writing to GP, arranging prescription, arranging repeat testing or discussing with relevant consultant of the day.

7. Set <Interpreted Result> on the Test Request and Results Detail form to an appropriate value

   Clinical Result
   Interpreted Result   Other Growth
   Patient Result

8. Set attendance to 'C'
